Re: Art Installation

Dear Parents and Carers,

We have some very exciting news to share with you! During the Spring Term we will be working with our resident artist, Dee Carver, to create an art installation!

Every child in the school will contribute to this exciting project. The installation will link to our BIRDS theme and to our ongoing dedication and commitment to sustainability. For this project to take place we need your help! We need to collect as many **4 pint and 6 pint milk bottles (with lids attached)** as possible. We are aiming to collect one per child, which means we will need around 500! Please spare a moment to wash them out before bringing them in. We also need as many lids as possible from all types of bottles and containers. We **need blue, white, clear, silver and green lids.**

Please start to collect and bring in these items as soon as possible.

Once the art installation is complete we will look forward to welcoming you in to see it and find your child's contribution!

Thank you for your continued support.

Warm Regards,

Jo Saw, Art Lead.
