

Your child's new teacher is:

**Miss. Roberts**

They will be in:

**R Holly**

### Who am I? Where did I come from? What am I doing here?

I have been teaching for over 10 years and still absolutely love what I do. I spent many years teaching at THS before taking the exciting opportunity to work at an international school in Dubai. Although I enjoyed my time abroad, I wanted to return to THS because I truly believe it is a very special place to learn and grow.

I have been a Reception teacher at THS for many years and have had the privilege of supporting many children as they begin their school journey. I am excited to meet your child and be part of their learning and development during this important and memorable first year at school.

Outside of school, I love travelling to new countries, experiencing different cultures, and trying new foods. I also enjoy keeping active and spending quality time with my friends and family.

I will have an 'open door' and will always see you as soon as possible being mindful of my teaching commitments. Please don't hesitate to find me on the door or contact me on Tapestry.

Don't forget to check on Tapestry for our weekly updates and home learning activities.

### Why your children are important to me:

... because they are so precious to you!  
I want the absolute best for them, and every day gives us new and exciting opportunities.

I am passionate about teaching and learning and want the best for each and every one of them. I believe every child has potential and am dedicated to ensuring they achieve their best.

We are all THS BIRDS and during Reception, I will be making sure they are ready to take flight and soar.

### Why Reception is amazing:

Reception is a truly exciting year!

The classroom will provide an amazing opportunity for children to learn and develop in a safe and nurturing environment. During their time in reception, children will be provided with a range of experiences and activities to support their social and emotional development, communication and language skills, physical development, and early literacy and numeracy skills. These skills form the foundation upon which their future education is built.

Our approach to learning is centred around play-based activities and child-led learning, which encourages children to develop their creativity, imagination, problem-solving and critical thinking skills. This approach fosters a love of learning that will stay with them throughout their lives.

We are dedicated to ensuring that every child reaches their full potential and that they enjoy their journey along the way.

*I look forward to seeing you in September!*
