

Your child's new teacher is:

Miss. Pollock

They will be in class

R Cherry

Who am I? Where did I come from?

What am I doing here?

Hello! I am Miss Pollock.

I am excited to be joining the Reception team as an Early Career Teacher.

Having completed my final placement of teacher training here, I just knew this was the place to soar to the sky of opportunity.

I have worked with children and families for over 25 years within a variety of childcare and educational settings. I have experience supporting children with a range of needs and believe that strong home-school partnerships help children thrive.

I am a mum of five children, and my youngest is four years old.

My door is always open, and I look forward to helping your child settle, learn and grow.

I will have an 'open door' and will always see you as soon as possible with teaching commitments.

office@thomashickman.bucks.sch.uk with any queries.

Why your children are important

...because every child deserves the chance to soar.

As a THS BIRD, your child is unique, valued and full of potential.

My role is to help them build confidence, discover their strengths and develop a love of learning. Together, we will help them spread their wings and flourish throughout their Reception year.

Why Reception is amazing:

Reception is a magical year full of wonder, discovery and adventure. Our classroom is a safe, nurturing place where children can spread their wings, follow their curiosity and develop a love of learning.

Throughout the year, we will explore exciting fields of study including 'Ready, Steady, Grow', 'Creep, Crawl and Wriggle', 'Super Duper You', 'Once Upon a Celebration' and 'Marvellous Machines'. These topics will inspire children to ask questions, investigate and discover the world around them.

Through play, exploration and hands-on experiences, children will build confidence, make friendships and develop the communication, language, reading, writing and mathematical skills that provide strong foundations for future learning.

Every day brings new opportunities to wonder, explore and achieve. Together, we will encourage every child to hatch new ideas, spread their wings and soar throughout their Reception year.

I look forward to seeing you in September!
