

Your child's new teacher is:

Mr Dineen

They will be in:

R Bamboo

Who am I? Where did I come from? What am I doing here?

I have been teaching for 6 years and I was a AT for 4 years previous, I love my job! I am new to THS and am excited to get started. I have taught at lots of local schools, Quainton, Brill and Thameside in Abingdon.

I love Sport, especially Football, being active, Batman, spending time with my friends and family. I am married and we have a son who is 2, a dog and a cat.

I love teaching in Reception because you see the wonder and curiosity learning can foster and from the minute I walked into THS it gripped me as a great place that captured that wonder and curiosity. THS seems like the perfect place continue to learn and enjoy new adventures in Early Years. Early Years really is the best!

I will have an 'open door' and will always see you as soon as possible, considering my teaching commitments.

Why your children are important to me:

... because they are so precious to you and children are the future!

I want the absolute best for them, and every day gives us new and exciting opportunities.

I am passionate about teaching and learning and want the best for each and every one of them. I believe every child has super powers and we will help them find them whilst having loads of fun along the way

We are all THS BIRDS and during Year Reception, I will be making sure they are ready to take flight and soar.

Why Reception is amazing:

Reception is a truly exciting year!

Throughout the year the children will be provided with many adventures and experiences. The classroom will provide an amazing opportunity for children to learn and develop in a safe and nurturing environment, where mistakes are part of learning, because in Reception we always try our best. We will support their social and emotional development, communication and language skills, physical development, and early literacy and numeracy skills. These skills form the foundation upon which their future education is built.

Our approach to learning is centred around play and child-led learning, which encourages children to develop their creativity, imagination, problem-solving and critical thinking skills. This approach fosters a love of learning that will stay with them for a lifetime.

We are dedicated to ensuring that every child reaches their full potential and that they enjoy their journey along the way.

I look forward to seeing you soon!
