Review Long TERM TARGETS

| Long Term SMART Target (copied above from 'My Story') | Review of progress over the year Target met/partially mat/not met What progress has been seen? What are the barriers areas of ongoing concern? | Plan Next Steps Suggested target/area of focus for next academic year 2024/2025 |
|---|---|---|
| | The Long Term Targets (laid out in the 'My Story' section on the front page) are reviewed at the end of the year. This enables staff to track progress, identify any ongoing areas of concern and to plan the support for the following year. | |

Plan Transition – What needs to be in place to support successful transition to my new class?

<u>July 2024</u> – What actions need to take place in order for me to familiarise myself with my new adults, new classrooms and new areas of the school?

<u>September 2024</u> – What reasonable adjustments need to be in place from day 1? Are they any particular resources which help to support and engage learning? What

interventions will be needed?

Change is never easy, and staff put a lot of thought into the transition support that each child needs in order for this period of change to go as smoothly as possible. Transition work starts in July (once classes for the next academic year have been announced) and continues in September.
