

'Hand in Hand' Parent Workshops WITH GUEST SPEAKERS

In response to our recent appointments, myself, Abi Manly, Co Dep Head for PSBI, and Abi Hunter, SENCO are putting together a series of workshops for parents/carers to give further insight into prevalent Special Education need within our school.

Our aim is to align the work we do to in regard to our SEMH provision (Hand on Heart) with our SEND provision. We have named these workshops Hand in Hand, whereby we aim to work alongside parents/carers to address and respond to individual need.

I look forward to seeing you at these workshops. These initial two workshops are just the start of what is to be a comprehensive program of expert advice.
